

How to embed a Google Doc into Blogger

What does Embed Mean? If you embed something it publishes the image of the document or video right onto your blog or site. Some people like this because it shows the document instead of just listing a link to the document or video.

Go to your Email Account and Google Drive

Go to Google Drive and select your document you want to embed, or create a new document to be embedded

Step 1: Sign In to your Google Drive Account and Click 'Create' button and/or open the presentation. This will show all available features and you need to click 'Presentation'.

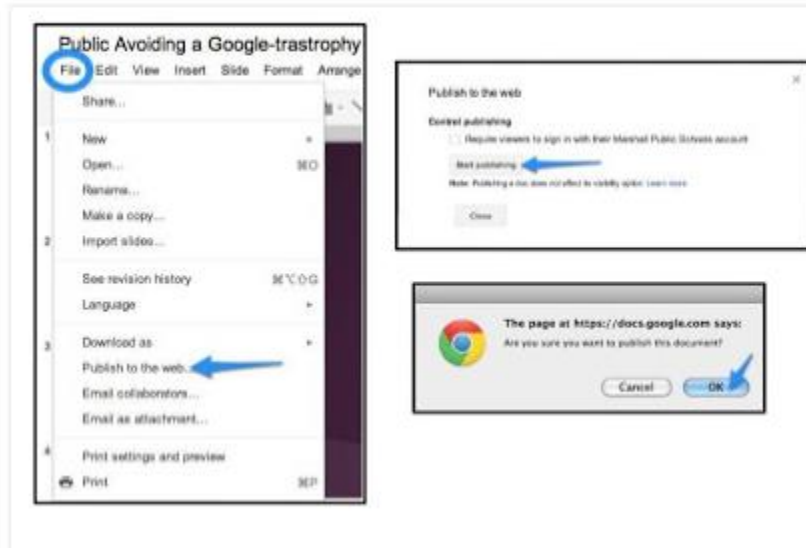

How To: Embed a Google Slides Presentation on Your Blog

1. Open your presentation from your Google Drive in your Chrome browser.
2. Go to File and down to "Publish to the Web"
3. Click on "Embed"
4. Change the "Slide Size" from Medium to Custom.
5. Change the width. (Anywhere from 500-650 will probably fit your blog)
6. Copy the embed code.
7. Open your Blogger dashboard.
8. Create a new post.
9. Change over to HTML view.
10. Paste your embed code and then change back to Compose view.

****Don't forget to title your post!**

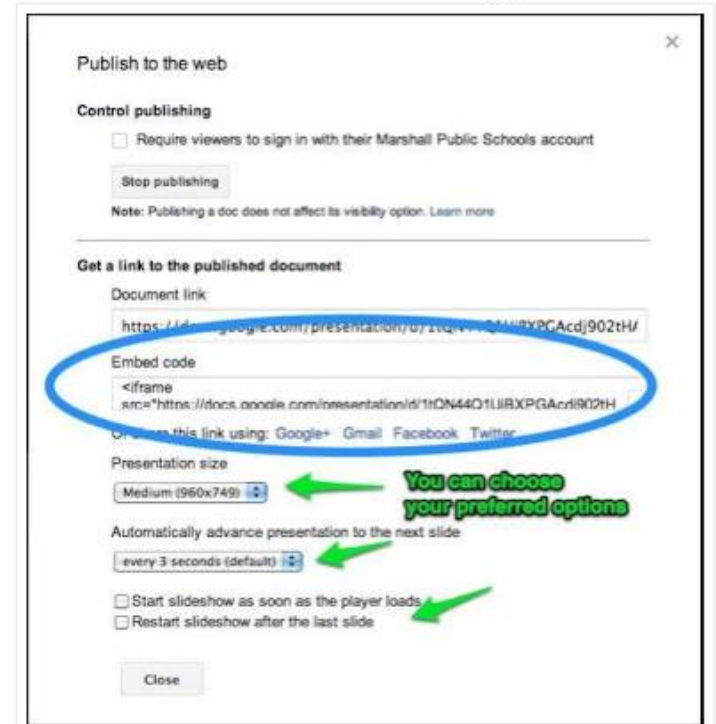

1. Make your Google Presentation Public

- File -- Publish to Web... -- Start Publishing -- OK

2. Copy the Embed Code with your preferred options

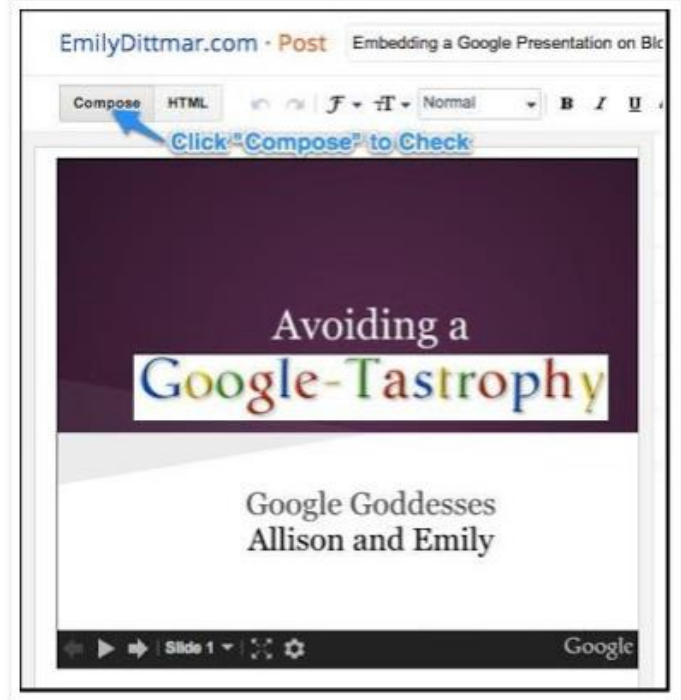

- File -- Publish to the web... -- Copy Embed Code

Go to your Blogger site

3. In Blogger New Post, Paste the Embed Code in the HTML Edit Place

- New Post -- HTML -- Paste -- Compose (to check)

4. Publish your blog post for the world to see and comment!!
